### **Two named lectures, which can be used as part of recruiting or pre-recruiting visits.**

- **Carolyn Baldwin Morrison Distinguished Lecture** — for distinguished early career women ( $\pm 3$  years of tenure).
- The yearly **Barbara McClintock Distinguished Lecture** — for a young (pre-tenure) outstanding female faculty member who was a Cornell undergraduate.
- **Coffee-with-the-candidate** — When you are interviewing women, CU-ADVANCE can help you to schedule a meeting for a female candidate with a group of women faculty in related areas at appropriate professional stages. Contact Sheila Hemami.
- **Faculty Development Grants** provide a flexible mechanism for departments by which high-potential women scientists can recruited.
- Encourage search committees to review material on eliminating biases in evaluation and to use the **Candidate Evaluation Tool** during searches.
